Mammogram Screening (3D)	\$99	\$560	82%
Mammogram Diagnostic (2D)	\$290	\$551	47%

### What We Don't Do:

- We do not provide care for pregnancy, but we can do pre-conception counseling, free urine pregnancy testing and refer you to a capable OB/GYN.
- We do not perform DOT physicals, Worker's Comp, or Motor Vehicle Accidents.
- We do not manage chronic pain. If this is a part of your health care, we will manage your other concerns and coordinate pain-related care with a pain professional. We do not carry any pain medications or controlled substances in our clinic and do not routinely prescribe them.
- We do not offer on-site immunizations because these are available at a low-cost at pharmacies and County Health Departments. We will review CDC immunization recommendations and update the state database.
- We do not function as the attending physician when our patients are in the hospital. This means we don't write the orders, do the billing or 'call the shots'. We will provide records and discuss your care by phone as requested if you should become hospitalized.
